## #LIVINGWITHOUT HIGHLIGHTS APPLIANCE POVERTY

The #LivingWithout campaign highlights the true scale and impact of appliance poverty in the UK. Our report sets out a series of solutions to help get a fridge, freezer, washing machine and cooker in every home.

Too many people are living in houses without essential household items and facing the resulting financial, physical and emotional penalties. We want to support those already struggling and contribute to a long term solution.

The campaign has been built around two key objectives:

\* To provide immediate support for people living without essential household items by increasing access to grants and other forms of support through our existing services and partnerships.

\* To work with key stakeholders to create a number of medium and long term solutions that focus on providing practical help and deep-rooted societal change.

# SPOTLIGHT ON ..... TRANSFORMATION CORNWALL

In autumn 2019, the Church Urban Fund commissioned an external evaluation of Transformation Cornwall's impact in strengthening faith based social action in Cornwall. We are grateful to everyone who took part and thrilled with the results.

The evaluation reported that during June 2018 - June 2019, Transformation Cornwall supported faith groups in Cornwall to secure £111,000 of funding to help them to deliver social action projects and services and reached 1,075 disadvantaged people across Cornwall through the support and services, which they helped to provide.

87% of respondents reported that they have improved the quality of their services, and 81% of respondents have increased the number of people they support.

The evaluator concluded "it is clear that Transformation Cornwall is a vital resource to the faith sector in Cornwall providing high quality and responsive support, advice and guidance, depending on the particular needs of each particular group."

The report 'Transformation Cornwall: An external review of outcomes and impact' can be downloaded in full from the Transformation Cornwall [website](#).
